Comments		Hasn't been eating as much pellets in January, so feeding pellet mush in addition. Poop smears where he's been sleeping, during prior week. Cleaned ears the day before (but not down into canals) and dusted with Buck Mountain Parasite dust because bald spots and some dander where shedding on head	Started cisapride and $\frac{1}{2}$ dose liquid raglan and benebac and simethicone or $\frac{1}{2}$ Gasex chewable. Begs for treats, doesn't want any other food usually. Tiny hard poops.	Add Dr. Scerba's homeopat hic for tummy; added 250 mg crushed Bromelain tablets	Switch to injectable version of Reglan							<i>Eating more than yesterday so far and gut sounds are frequent for the first time, gurgling sounds with some silence</i>
